PROFESSIONAL SUMMARY

Computer Engineering student experienced in building responsive web applications and AI-driven projects with a strong focus on frontend development and UI/UX design. Skilled in developing scalable, user-centric, and intuitive digital experiences using modern web technologies and design tools.

EDUCATION

Thadomal Shahani Engineering College B.E. in Computer Engineering — CGPA: 9.48/10 Dr. Babasaheb Ambedkar Technological University Diploma in Information Technology — CGPA: 9.34/10	Mumbai, MH Aug 2024 – May 2027 Lonere, MH Aug 2021 – Jun 2024
--	--

TECHNICAL SKILLS

Languages: Java, C++, JavaScript (ES6+), Python, SQL (MySQL)
Frameworks/Web: React.js, Next.js, Node.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Tools & Platforms: Supabase (PostgreSQL), Git/GitHub, Figma, Adobe Photoshop, FastAPI

PROJECTS

InterviewIQ – AI Interview Anxiety Detector Next.js, Python, FastAPI, Supabase	Live Demo
- Developed a full-stack AI system to detect interview anxiety using behavioral signals such as response latency, typing speed, and answer length. - Built and deployed a Random Forest ML model using scikit-learn and FastAPI for real-time prediction and analysis. - Integrated Claude API for evaluating answer quality based on confidence, clarity, and relevance. - Designed an analytics dashboard to visualize user performance metrics and AI-driven feedback.	
DetectiKid – ADHD Detection System Python, Tkinter, ML	GitHub
- Developed an interactive ML-based application to distinguish ADHD from slow learning patterns using behavioral analysis. - Implemented cognitive assessment games to capture response time, attention span, and interaction patterns. - Analyzed user performance data to generate insights for early behavioral detection and classification.	
ColorScope HTML, CSS, JavaScript	Live Demo
- Developed a web-based tool for real-time color detection and HEX code generation. - Implemented LocalStorage-based persistence for saving custom color palettes.	

EXPERIENCE

UI/UX Designer Xonther (Remote)	Feb 2025 – May 2025
- Designed high-fidelity mobile interfaces focused on usability and seamless user experience. - Collaborated with developers to ensure smooth implementation within React Native constraints. - Improved navigation flows and reduced interaction friction through iterative design improvements.	
UI/UX Intern Codsoft (Remote)	Dec 2024 – Jan 2025
Created responsive wireframes and UI designs for e-commerce and SaaS platforms using Figma.	
Internship Trainee Kopran Ltd., Mahad	Jun 2023 – Jul 2023
Updated and maintained internal product database systems to improve workflow efficiency.	

LEADERSHIP, ACTIVITIES & INTERESTS

NSS Joint Student Leader: Coordinated student volunteer initiatives and community service events at TSEC.
Hostel Secretary (2023–2024): Managed administrative operations and student grievances for a 100+ student hostel facility.
Interests: UI/UX Design, Frontend Development, Creative Problem Solving, Dancing
